

Welcome to Your Alchemical Astrology Chart Reading Guide!

First of all, what is Alchemical Astrology?? This is a unique blend of astrological methods that I've created, which takes into account the different astrological viewpoints that I have studied and worked with over the past 12+ years:

- Evolutionary Astrology
- Hellenistic Astrology
- Shamanic Astrology
- Ancient Egyptian and Sumerian perspectives on astrology & astronomy

Alchemical Astrology combines all of the above into a translation of the cosmic energies in which we look for the points of transformation in the birth chart – Especially the 'destiny moments,' when the Cosmos gives us an opportunity to shift timelines, based on how the transiting planets interact with one's birth chart on particular dates.

Using Alchemical Astrology, we can tap into the highest frequency possibilities of our Cosmic Timelines and transformation moments, in order to receive the most beautiful results in life. It allows us to see the vast mythological story of our life (and even who we have been across multiple lifetimes), so we can truly honor the deep journey of our soul and better know how to respond in every beautiful NOW moment.

I hope you'll enjoy this fun exploration of Alchemical Astrology!

With infinite cosmic love and gratitude,

Jocelyn Star Feather
